Help us fight the privatization of our public roads.

Speed Bumps

- Hurt Property Values
- Don't solve speeding problems
- Pit neighbor against neighbor
- Delay emergency response vehicles
- Are usually prohibited on emergency response routes
- Are opposed by the Americans with Disabilities Act (ADA)
- Increase road rage
- Diminish safety
- Are dangerous for motorcyclists
- Pose difficulties for snow and ice removal
- Placate the "squeaky wheels" at everyone else's expense.
- Disrupt our commute every day.
- Slowly degrade our quality of life

None of us condone hazardous speeders, but this was a wrong-headed approach promoted by an unaccountable committee that manipulated Kitsap County for their personal gain. These are our roads, too. Please help us protect access to our communities. Visit www.beep4bumps.com today and contribute your thoughts. Only in large numbers can we make a difference.
